LES CLAUZOTS

SAINT-PIERRE-DE-MONS

WINEMAKER : A FAMILY PASSION

Château les Clauzots in Saint Pierre de Mons is a place where wines are embedded in the terroir. The vineyard is situated on left side of the Garonne, South of Bordeaux and dates back more than a century. For five generations the Tach family have been custodians of the land. The winemaking knowledge and viticulture expertise has been handed down from Frederic, the current owner, to his two sons, Adrien and Maxime.

THE GRAVES APPELATION : A GENEROUS NATURE

The vineyard consists of 37 ha of vines after being expanded from the initial size of 15 ha. The great disparity in the soil of the domain, constituted by clay and gravel but also sand, offers a very wide range of the geologic map of Graves.

Terroir of Graves is composed of Quaternary era terraces, with large round pebbles which benefit from the accumulation of heat and are more suitable for red varieties. Also, the clay and sandy lands are perfectly adapted to white vines, because this poor soil forces the vines to sink their roots deep down to find nourishment. That gives freshness and minerality notes to our white wines.

The estate is planted essentially with four grapes varieties: Cabernet Sauvignon, Merlot, Sauvignon Blanc and Semillon. Other grapes varieties like Sauvignon Gris and Petit Verdot are also present but a minority in our blending.

T

PRECISE WINE GROWING : THE BASIS OF OUR WINES

The obsession of our profession of winemakers is to care and to complete the work on the vine throughout the seasons with precision. Our family puts all its knowledge in to successfully growing healthy vines and assure the transformation of flowers to grapes. Then, with attention to detail we gently guide the transformation of grapes to wine by vinification and ageing.

Learners and Winemakers in the greatest Bordeaux wines like Château Haut-Brion, Château d'Yquem, Château de Fargues, Domaine de Chevalier and La Fleur de Boüard. Our winemaking inspirations are based on a double approach, scientific and traditional.

- Adrien and Maxime TACH

T

THE WINES

CHÂTEAU LES CLAUZOTS RED « CUVÉE MAXIME »

The cuvée Maxime expresses great richness as it contains fruit from the oldest Cabernet Sauvignon and Merlot vines of the property which are rooted in terroir composed with large pebbles on clay. The wine quickly integrates into new oak barrels after using a slow and moderate extraction process. Maturing for 24 months on fine lees gives a smooth wine of finesse. With a good balance and harmony, this wine offers a wide range of flavors and aromas and a remarkable longevity.

CHÂTEAU LES CLAUZOTS RED

Château les Clauzots is a historical wine which truly represents the domaine. The red takes its quintessence from the gravel and clay terraces of Saint Pierre de Mons.

Traditionally vinified into stainless steel vats, this wine benefits from a cold pre-fermentation maceration and a slow alcoholic fermentation. Next, this wine is aged with wood contact on fine lees during 18 months. Château les Clauzots shows a vibrant intensity and freshness of fruits enhanced by a careful ageing which reveals elegant and fine wooden notes.

CHÂTEAU LES CLAUZOTS WHITE

The white Château les Clauzots wine embodies fruit expression from the fresh terroir composed of clay and sand. With pleasant and expressive aromas of citrus fruits, peach and exotic fruits, this white wine fully opens to display an expressive aroma. White Château les Clauzots is a reference into white Graves wines of the appellation. It presents an incredible balance between tension and an unctuous mouth.
